

PCS Services Overview

Why Choose PCS?

Professional Cabling Solutions (PCS) has been serving leading businesses as a single-source provider for Structured Cabling, Video Surveillance, Access Control, and Audio/Video Systems since 2003. We serve as a one-stop solution for many small businesses and Fortune 1000 clients nationwide. PCS provides superior service, expert installation and the highest quality IT infrastructure, telecommunications and physical security solutions guaranteed!

Our Core Expertise

We excel in the planning, design and implementation of structured cabling and physical security projects. We have developed a distinct expertise in handling small, mid and large-scale projects for clients locally, regionally, and nationally.

"As a start-up, we needed a partner to help us with our cabling, access control and video surveillance needs. We selected PCS based on a referral from a trusted friend and PCS has proven to be an excellent partner. They helped us through the selection and design process and did a great job cabling our new headquarters. I'm very pleased and plan to use PCS for future projects and locations."

-Chip Burke, Chief Technology Officer, Education at Work
